

# Hearths

Hearths are placed directly in front of the firebox. You may select a Flat or a Raised hearth to your specifications. Standard flat hearths have a Square Edge, standard raised hearths have a Half Round Edge. You may also choose edges in Half-Round, Beveled, or OG.

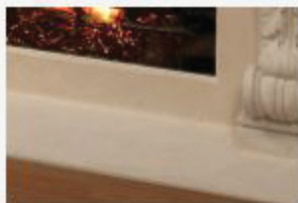

**NOTE** If you require a special shape let us know (ie: U-shape hearth)

**Flat Hearth (1 Piece): 1" Tall**

Shown with square edge

Used if firebox is on the floor or firebox is raised off the floor (preferred to fill the space with facing)

**Raised Hearth (1 Piece): 2"-18" Tall**

Shown with half round edge

Used if firebox is raised off the floor (height of the hearth meets the bottom of the firebox or fill the space with facing)
